

BankSathi AI – Multilingual Banking Super Agent

Vision

A voice-first multilingual AI banking assistant for rural and urban India that enables customers to perform banking tasks in their preferred language.

Problem

Millions of users struggle with English interfaces, banking terminology, and digital literacy.

Solution

- Voice banking in Indian languages.
- AI financial coach.
- Fraud awareness and scam detection.
- Loan, FD, SIP, bill payment assistance.
- Personalized financial memory and recommendations.
- Accessibility for senior citizens and low-literacy users.

Target Users

Farmers, MSMEs, senior citizens, rural households, first-time smartphone users.
